

#### **OUR PHILOSOPHY**

The concept of Belldinni is based on many factors, each leading to successful work. The most important of them - professional staff.

The company's specialists have knowledge and skills, dedication and aspiration to perfection.

Modern production equipment provides consistently high quality products.

Quality products are the result of well-functioning production system.

The company offers its customers the widest range of designs in door slabs finishes.

Thus Belldinni successfully stated its mission - In each collection we create European quality doors, combining design, environmental friendliness and functionality.

#### **CONTENTS**

## NARVIKA collection

The simplicity and functionality of the Scandinavian style that emerged in the early 20th century, and which flourished in the 1950s, in the five Nordic countries of Denmark, Finland, Iceland, Norway, and Sweden is reflected in the simple clean lines of the Narvika collection.

The peculiarity of these doors is a high quality polar white matte finish obtained from the combination of polyurethane primers and lacquers. By applying several layers of lacquer with interim priming and grinding, we achieve the ideal smoothness of the surface.

Additionally, the advanced lacquer finish protects the doors from damage and moisture.

#### AVAILABLE COLOURS

## CITY collection

Feel the pulse of the city and find yourself in the center of urban events not even leaving your cozy room. Enjoy the laconic forms, smooth surfaces and monochrome palettes of our modern City collection, in which the real aluminum lines intersect and shape the grid of Manhattan.

A quality solid pine frame and a solid core inside form the basis of a strong and durable construction.

The doors are professionally coated with an echo-friendly Evo Pro finish of a new generation, which is highly valued for a deep texture of the surface and high consumer properties: increased moisture resistance, resistance to the influence of sunshine and the lack of harmful substances.

## MODULAR collection

The peculiar motif of the whole collection is the geometry of shapes: clear lines visually organize the interior space without overloading it with unnecessary details.

Each part of the Modular doors is primarily coated with a technologically advanced Evo Pro finish, predrilled and then all pieces are carefully hand fit together with the industry's finest adhesives on all connections.

#### AVAILABLE COLOURS

# **OPTIMA** collection

Modern design, high standards of craftsmanship and color palette selected in line with the newest trends are the advantageous characteristics of the new Optima collection. Whether you are a builder or a house owner, a well balanced combination of price and quality is definitely worth your attention.

The doors consist of a solid pine frame and an eco-friendly solid core material, which is a high density wood fiber mixed in with polyurethane resin and wax to secure a high level of sound and thermal insulation. Such type of filling provides additional durability, noise reduction and thermal insulation and grants additional lightness to the door slab.

Popular and unique finish colors will add beauty to your home for years to come.

## **FRENCH** collection

Want to create a bit of a separation between the rooms in your house, but still let the light flow through?

Want to add architectural interest to a boring or unremarkable space? A pair of French doors is perfect for that!

The Belldinni French door collection includes a range of expertly crafted doors available in a variety of wood finishes, styles and glass options to complement any interior.

The tempered frosted glass used in production looks elegant and is very practical as it meets all regulatory safety requirements.

# **AVON** collection

AVON collection of interior doors brings a classical touch into refined high tech style. Straight lines, ecofriendly materials, plenty of modern technologies are combined with the best industry standards. Gorgeous number of options is provided in choosing the quantity of panels, glazing, decorative elements.

Stiles and rails doors provide quality, beauty and proven durability. Their construction uses linear pieces of lumber that is assembled into a single structure to ensure functionality and high level of performance.

Their PPL finishes give a completely natural look. Eco-friendly PPL is scratch and water resistant, without sunlight fading and discoloration.

# AURUM 2 Polar White 46

## **AURUM** collection

AURUM collection creates a delicate balance of privacy and space. Refined glass inserts produce the sophisticated effect of floating panels.

AURUM collection was created to combine the traditional and modern design in a single elegant decision. Minimalistic decor with emphasized simplicity allows us to focus on the magic "floating panels".

Practical advantages of the AURUM collection are equal to its aesthetic benefits. The 1/8" thick tempered glass installed in the door slab keeps you safe as in case of damage it would break into small smooth surfaced splinters excluding the possibility of injury.

# TWINWOOD collection

TWINWOOD collection unites all the door models in a common stylistic concept. Every model combines with the others in aesthetic harmony and provides the perfect interior solution for construction objects. The variety of combinations allows to complete unique designer projects perfectly matching the customer needs.

TWINWOOD collection comes in multipurpose minimalistic style. The finish crafted from natural oak with the brushing treatment creates a gorgeous surface with stunning wood structure. The enamel painting offers a rich assortment of RAL palette tones.

# **SOTBY** collection

SOTBY collection manifests the attention to luxury architectural details.

Stylish combination of decorated panels, cornice and rosettes is enriched with noble colors and patinated elements. Patination is crafted by hand only, exclusively for each door. That makes every model of SOTBY collection unique and authentic for Victorian style interiors. Exquisite Italian enamel is used as the door finish. This solution provides the affordability of rich color palette and fantastic durability.
